Inter-Mountain Four State Fair.
Ogden, Utah, September 22-30. Reduced rates via Oregon Short Line. A Remarkable Range
No one heard before of a range with so many advantages for anything like this price. The hot blast combustion which saves the wasting gases in the fuel, thus making one ton of coal do the work of two in other ranges, is only one of more than a dozen points of superiority which Cole's Hot Blast Range, the modern, up-to-date range, has over all others. (R-61)

NO OTHER STOVE DOES THIS
Cole's Hot Blast Heater maintains a continuous fire; also a steady, even heat. It will hold fire from Saturday night until Monday morning (48 hours). It will hold fire over night with less coal than any other stove. Open the drafts in the morning and the room is quickly heated with the coal in the right place. Come in and examine Cole's Original Hot Blast Heater. Price \$22.00 and up, according to size. (R-11)

Their Mistake.
Some folks get to thinking in sums of figures, and seemingly forget the bright and shady places peopled by men and women with their joys and rheumatism, for the very reason that they cannot set such trivial things down in their ledgers.

NO STOOPING WHILE BAKING
You will appreciate the advantages of Cole's High Oven Range as compared with the old-fashioned coal stove or cast iron range. The oven is on a level with the top of the range, so you have no stooping, no steam or odor to inhale when baking in Cole's High Oven Range. This new improved cooker and baker is a money saver for you to use. Particularly adapted to burning the cheapest soft coal. (R-43)

Modernism.
The Critic—My dear, just fancy having your portrait painted in your car. Why, a motor car goes out of fashion in a single year!

No Immediate Danger.
Friend—When do you expect Mr. Rich to recover?
Doctor—I don't know; he's the only patient I have at the present time.

Getting Up.
"They're getting up in the world."
"Yes, indeed. They've got to the point now where they consider it necessary to hire a caterer every time they give a party."
